

Sachina Oli

Old Baneshwor, Kathmandu | +977 9845050277 | oli.sachina99@gmail.com | github.com/sachinaoli

Objective

BIT undergraduate with knowledge of software quality assurance, manual testing, API testing, and UI automation testing. Skilled in creating test cases, reporting bugs, and automating web application tests using Cypress and Postman. Familiar with REST API testing, test automation, and version control using Git and GitHub.

Experience

QA Intern | Softix Info Pvt. Ltd.

Jun 2026-Present

- Perform manual testing of web applications, covering functional, UI, usability, and regression testing.
- Design and execute test cases based on application requirements and expected user workflows.
- Build and maintain automated end-to-end test cases using Cypress with JavaScript.
- Test REST APIs using Postman, validating endpoints, request payloads, responses, status codes, and error handling.
- Automate critical user workflows, including authentication, form validation, and application navigation.
- Identify, reproduce, document, and track defects with clear steps, expected results, and actual results.
- Collaborate with developers to investigate defects and verify fixes across testing environments.
- Perform regression testing after new features, bug fixes, and application changes.

AI Data Annotator | RWS (Remote)

Dec 2024-Jan 2026

- Collaborated on large-scale ML projects to improve AI model accuracy.
- Annotated text, image, and audio data with 95%+ quality accuracy.
- Evaluated AI responses for factual accuracy, tone, and safety.
- Followed quality guidelines and feedback to improve annotation accuracy

Marketing and Tech Support | Deerwalk Compware Pvt. Ltd.

Nov 2024-Aug 2025

- Communicated with students to understand their interests and guide them toward suitable courses and programs.
- Coordinated follow-ups and maintained student engagement through effective communication and organization.
- Provided technical assistance and resolved user issues while ensuring adherence to organizational procedures.
- Worked collaboratively with teams to support operational and administrative activities.

Education

Padmakanya Multiple Campus, Bachelor in Information Technology (BIT)

2022-2026

Relevant Coursework: Software Engineering, Database Management Systems, Web Technologies, Software Testing, Data Structures

Global college of Management, High School

2022

Projects

RESTful Booker API Testing (working)

- Created API requests in Postman.
- Tested authentication and CRUD APIs.
- Wrote test scripts using JavaScript.
- Added assertions for status codes, response body, and response time.
- Used environment variables to manage authentication tokens and booking IDs.

Cypress UI Automation Testing

- Automated end-to-end test scenarios using Cypress and JavaScript.
- Applied Page Object Model (POM) for reusable and maintainable test code.
- Automated login, inventory, cart, checkout, and logout workflows.
- Added assertions to validate user interface behavior and navigation.
- Used Git and GitHub for version control.

Training/Certifications

Software Development Training, Kathmandu Metropolitan City

- Completed an intensive software development training program with practical experience in React.js, web development, Git, and project-based learning.

Skills & abilities

- Manual Testing
- Test Case Design and Execution
- Functional, Regression, Smoke and Sanity Testing
- Bug Reporting and Defect Tracking
- API Testing, Postman, REST API
- Cypress, Selenium
- JavaScript, C#, Java
- Browser DevTools
- SDLC, STLC, Agile/Scrum
- Jira
- Git, GitHub
- MySQL
